

## Unit 1 Bingo – Anatomy

1. Medial
2. Cranial cavity
3. Plerua
4. Popliteal
5. Brachial
6. Midsaggital plane
7. Distal
8. Frontal (Coronal) plane
9. Anatomy
10. Physiology
11. Elbow
12. Skeletal
13. Smooth
14. Integumentary system
15. Muscle
16. Inferior
17. Osseous
18. Adipose
19. Proximal
20. Thoracic cavity
21. Appendicular
22. Posterior surface
23. Abdomenopelvic cavity
24. Front of elbow
25. Cuboidal
26. Lateral
27. Superior
28. Neurons
29. Lumbar
30. Dorsal surface
31. Ventral surface
32. Buccal
33. Peritoneum
34. Epithelium
35. Digestive system
36. Plantar
37. Endocrine System
38. Axillary
39. Axial
40. Anterior surface
41. Cartilage
42. Transverse plane
43. Homeostasis
44. Acromial
45. Pedal
46. Tissue
47. Fibrous connective tissue
48. Histology
49. Connective
50. Skeletal system

1. Closer to the midline
2. Away from the midline/towards to outside
3. The cheek
4. Behind the knee
5. Upper arm
6. Divides the body into right & left halves
7. Divides the body into top & bottom halves
8. Divides the body into front & back halves
9. The structure of the body
10. The function of the body
11. The study of tissues
12. Muscle tissue under voluntary control
13. Involuntary muscle tissue
14. Tissue that covers all body surfaces
15. Tissue specialized to contract
16. Conducts electrochemical impulses
17. Bone tissue
18. Fat
19. Stable internal conditions
20. Location of lungs (within . . . )
21. Portion of the skeleton that includes arms & legs
22. Portion of the skeleton that includes head & trunk
23. Location of the liver (within . . . )
24. Location of brain (within . . . )
25. Closer to the head
26. Lower half of the body
27. Lower back
28. The occipital region - location
29. The navel - location
30. Lining of the lungs
31. Lining of the abdominal cavity
32. Skins, hair & nails
33. Eliminates unabsorbed food
34. Protects internal organs
35. Secretes hormones
36. Armpit
37. Cubital
38. The spinal cavity - location
39. The thoracic cavity - location
40. Tough, flexible connective tissue
41. Farther away from the point of attachment
42. Closer to the point of attachment
43. Point of the shoulder
44. The Foot
45. A group of cells working together
46. Tendons & ligaments
47. The sole of the foot
48. Antecubital
49. Epithelial tissue
50. Osseous tissue
